

"IF YOU WANT TO WORK FOR COUNTY, YOU MUST AGREE TO VOTE FOR POOL," DECLARES ORNDORFF TO THE BOARD

Asserts Before Commissioners that It Is Necessary to Get an Order From the Candidate For County Judge Before Being Able to Put team to Work on the Roads; Tries to Get Board to Assert Pool Is Making False Promises to Voters.

If you are a "ring" supporter with a pair of idle mules, Adrian Pool will give you an order and you can draw pay for the mules from the county. If you are an "anti" there is no work for your team on the county roads. That is the substance of what Seth Orndorff, "anti" ring candidate for county commissioner, told the county commissioners at its special session Monday afternoon.

"I have tried for 12 months to get my team on the road," said Mr. Orndorff, "and I and two others, I could not do it. The other two could not either until they turned 'ring' workers and then they got them on. If Pool gives an order for a team to be put to work on the county road, on it goes. If the commissioners' court doesn't know these things, it ought to be back there up to two with affidavits."

"I pay as much taxes as Pool and I have taken considerable interest in those roads. When you said we could have the Secor-Yaletta road, I dragged it for you. As a citizen and a taxpayer, I feel like I have the right to come before the commissioners' court with a protest in a case like this. You can pigeonhole it or investigate it, just as you see fit. You will never be able to say I never said anything about these matters. You foremen have been giving teams work for political purposes. They have been doing that all along."

"Well, I wouldn't give a team work for political purposes unless the team could do the work," said commissioner James Clifford.

"The valley is going to mean more than anything else to El Paso, to the city's development as a metropolis," continued Mr. Orndorff. "When that dam is completed you will see that. But the farmer who has put every dollar into his valley land will be up against it if he can't get a square deal. That is what I am here asking you for, a square deal. If we can't get that, we had better sell out for what we can get and quit. Now I have tried to get my team on the roads and could not. Do you think putting teams on the road for political purposes is giving us a square deal?"

"Well the foremen have been given discretion about hiring the teams," said Judge Elyar.

"I make a move that Mr. Orndorff's statement about the hiring of teams be investigated," said commissioner Ike Loewenstein. The motion was carried.

"When you get ready to investigate," Mr. Orndorff said, "I would like to know if I will furnish the commissioners' court with affidavits of what I have told you if you so desire."

"Another thing I would like to have straightened out," continued Mr. Orndorff, "is this: If Pool or Juan Larasola goes down there and tells those people they will get a road if they support

ARRANGES FOR BAND'S TRIP TO CLOUDCROFT

Scott R. Williams, pastmaster and secretary of the Cloudcroft chamber of commerce, spent Monday in the city to make final arrangements for the band at the big Fourth of July celebration that is planned at the Cloudcroft. The 8th field artillery band has been secured and will go to Cloudcroft on the morning of the Fourth, remaining until Monday. Capt. Charles R. Lloyd will accompany the band.

The Southwestern will run special trains to Cloudcroft on both the 4th and 5th and for this reason will cancel the service with the Golden State Limited.

Arrangements have been made to have the 8th infantry band go to Alamogordo. The band will be accompanied by Capt. Augener.

FIRE DEPARTMENT TO PARADE JULY 4

One of the features of the Fourth of July celebration in El Paso will be a parade of the entire fire fighting apparatus in El Paso. The several fire companies will traverse the principal downtown streets in the morning, starting from the Central station at 8 o'clock. The parade will be led by fire chief W. W. Armstrong.

JAPANESE GOVERNOR GENERAL IS INJURED BY HEAD HUNTERS

Taiheki, Formosa, June 26.—Lieut. Gen. count Sakuma, governor-general of Formosa, has been seriously injured in the campaign he is prosecuting against the head hunters. A victorious military campaign against the 24,000 head hunters of Formosa who refused to submit to the domination of Japan, has been waged for a year. The Japanese columns of subjugation aggregate 20,000 men, made up of native troops and the police force of the island.

ARMY AND NAVY PERIODICAL FEATURES ARMY DAY PARADE

Two pictures of the Army day parade in El Paso are shown on the front cover of the current issue of the Army and Navy News. A writer of Fort Bliss and El Paso by Andrew Reeves, secretary of the chamber of commerce, is also contained in the issue.

ELEPHANTS RENDER "FIRST AID;" EXPLORER RELATES THEIR KINDLY ACT

Washington, D. C., June 26.—Carl E. Akley, African explorer, in a communication to the National Geographic society, tells of an elephant "first aid brigade" made up of the female elephants of a herd, which not only attempted to give succor to their wounded "sultan" but went on "patrol duty" in an effort to punish his assailant.

While hunting elephants in Uganda, Mr. Akley came upon a herd in a clearing, rounded up in close formation, conscious of the presence of an unseen enemy. There were about 25 elephants, mostly cows, and just as I was on the point of backing off to a safer distance, thinking there were no big bulls in the lot, a fine pair of tusks appeared on the near side," he says.

"A clump of bushes offered cover for a near approach and I went in quickly to within 20 yards of him, and as his front leg was thrust forward offering a good opportunity for a heart shot, I fired both barrels of the double rifle in quick succession.

"All was commotion as I seized my second rifle and, seeing there was no direct charge, retreated some 50 yards to the top of an ash hill from which I could see what was going on. I then witnessed a scene such as I had heard described and which I had been keen to verify. A number of cows were clustered about the bull, for he had fallen 20 yards from where he was shot, and with their trunks and tusks were doing their best to get him upon his feet; the remainder of the cows were doing patrol duty, rushing about in an increasing circle, searching for the source of the trouble. That meant me, so I retired to a safe distance and waited for the elephants to clear.

This bull stood 11 feet and four inches high at the shoulders, and the tusks weighed 85 and 110 pounds respectively, while the circumference of the front foot at the sole was 67 1/2 inches, the largest recorded, I believe.

"It is generally understood that large bull elephants are more frequently to be found apart from the herd, but our experience does not bear this out. Three bulls that we have shot, having tusks each weighing over 100 pounds, have been known in Uganda, who have been seen by many hunters, is so well protected by a large herd of most aggressive cows, who charge at the slightest intimation of danger, that he still survives. These old bulls are very rare, for when one has developed tusks of 50 pounds he becomes the target for every hunter, native or white, who sets eyes upon him; thus it is only the more crafty or timid individuals that, seeking the protection of large herds or clinging to the more inaccessible regions, such as dense forests, manage to survive to a ripe old age and develop a full growth of ivory.

Charged by Enraged Herd.

"At another time, I was watching a herd from an ant hill, when from the cows there was a low, ominous rumble like distant thunder, which was plain talk and meant trouble. A hasty glance around convinced us that there was but one thing to do, to stand and meet the charge from the elevation where we were and from which we could see. If we tried to escape to one side or to the front we would find ourselves over the high grass before they were upon us.

They charged toward us, came half past the wind, but immediately caught it again, and roaring and screaming with redoubled energy came into view over a slight rise. It was a disconcerting

A CARE ERADICATOR TODAY.

The Wigan today offers a discouragement of care. The fat people of the Vitagraph company have been grouped in a two reel comedy called "Our Fairy Play." Can you imagine Fat Huckle Mark, James Lackaye and Josie Salter playing "fairies"? Billie Quick, famed as the leading comedienne of the Biograph company, in the days when that organization stood head and shoulders above all others, makes his bow

as comedian with the Vitagraph company in this production. There will also be a good Edison drama.

Tomorrow and Thursday "The Sunk-on City," a big Lubin production, will be shown. It is in the Wigan's own masterpiece service, which is ample recommendation to those who have seen the other pictures which were grouped under this head. They included "A Million Bids," "Brewster's Millions," "Classmates," "The Billionaire," etc., etc.

"Home Run" Baker, the idol of the fans, will appear in a two-reel baseball story on July 4. One of George Ade's fables will also be on the bill—Advertisement.

"MILLION DOLLAR MYSTERY."

What becomes of the millionaire? What became of the million dollars? That's what everybody's asking everybody who saw the first installment of the "Million Dollar Mystery" at the Grecian yesterday. It was the start of a great picture. You must surely see it. A two reel Raystone comedy special, "Patty and the Heiress," is also on the bill today. Come early. There will be special music by Koch's concert orchestra—Advertisement.

INTERRUPTION OF TRAFFIC HALTS COTTON IMPORTATIONS

With the heavy rains along the National lines, which have caused a suspension of traffic between Torreon and Chihuahua, little cotton has been received at this port and the heavy traffic to eastern markets of the staple has been considerably reduced. As soon as the line is again open, local freight men say, the heavy shipments will be resumed as there is still a considerable quantity of the cotton to be moved.
